

# Bluetooth - Zugriff verweigert beim Aktivieren der seriellen Verbindung

## TODO Translation

1. Go to Start?Run and type in „services.msc“ and click OK
2. Find „Bluetooth Support Service“ in the list of services and double click to open the properties window
3. Click on the „Log On“ tab and select „Local System Account“ for „Log on as:“
4. Click Apply and OK
5. Right click on „Bluetooth Support Service“ and select stop then right click on „Bluetooth Support Service“ again and select start
6. You may need to reconnect your bluetooth devices; everything should be working now.
